KINJAL SARKAR

ACADEMIC PROFILE

Degree/Certificate	Institution	Percentage/CGPA	Year
IDD	Metallurgical Engineering IIT (BHU), Varanasi	6.59	2027
WBCHSE (XII)	BPCSGHS	84.40	2022
WBBSE (X)	BPCSGHS	91.29	2020

SKILLS

- **Programming & Analytics:** Python, SQL, Pandas, NumPy, Scikit-learn, ADTK, Statistics, Time-Series, EDA.
- **Tools:** Tableau, Power BI, Excel, Plotly, Matplotlib, Git, GitHub, Jupyter, VS Code, Figma.

INTERNSHIP/TRAINING

Financial Data Analyst Intern | Bluestock Fintech May'26 – Jul'26

- Analyzed **46,000+ NAV records** and **32,000+ transactions** using **SQL, Python, Excel & Power BI** for insights.
- Cleaned & validated data across **40 AMFI schemes** and **10 AMCs**, improving accuracy & analytics workflows.
- Built **KPI dashboards** tracking **5,000 investors** across **12 states**, delivering trend and performance insights.
- Supported **fintech analytics** by optimizing data pipelines, cross-functional decision-making workflows & automation.

Data Analyst Intern | EDULYT INDIA May'25–Jul'25

- Used **3 BFSI datasets** ,**8+ customer attributes** to solve **5+ business analytics** usecases using **SAS, SQL & Excel**.
- Built automated pipelines for **monthly spend/repayment reporting**, credit-limit detection & **2.9%** profit calculations.
- Performed customer segmentation across **6 age groups** & **5 segments**, getting **Top 10** high-value customers.

PROJECTS

Level Shift Anomaly Detection System

- Built a **Python** time-series anomaly detector for **Daily Active User (DAU)** level-shift detection & trend monitoring.
- Applied **ADTK** & **Isolation Forest** using *scikit-learn* to detect abrupt & persistent behavioral anomalies accurately.
- Built **Plotly dashboards** & backtest pipelines for model validation, performance monitoring & analysis optimization.

Real-Time Gaze Estimation System

- Built a real-time gaze estimation system using **PyTorch, ResNet, RetinaFace, and MTCNN** to predict gaze direction.
- Implemented **MPIIFaceGaze** and **Gaze360** with calibration, smoothing and optimized CPU/GPU inference efficiency.
- Developed a **WebSocket dashboard** with **NDJSON streaming** for low-latency local gaze tracking for visualization.

Traffic Signal Optimization

- Developed a **traffic signal optimization model** to improve traffic flow using data-driven signal timing strategies.
- Analyzed traffic patterns and evaluated optimization to reduce congestion and improve intersection efficiency.
- Applied **Python-based data analysis** and algorithmic optimization techniques to support decision-making.

CERTIFIED COURSES

DAF Top Fellow | NextLeap Feb'26 - Jun'26

- **Recognized as a Top Fellow** in **NextLeap's Data Analyst Fellowship** by scoring **91%** in the program overall.
- Delivered a **Python–Tableau** analytics project on **8,216 products** and **600,825 customer reviews** successfully.
- Engineered **9 features**, analyzed **32 attributes** and applied **4 statistical tests** for KPI dashboards effectively.

POSITION OF RESPONSIBILITY

Event Manager | Kashiyatra'25 Oct'24-Mar'25

- Led the successful organization of **ABHINAY**, a national-level dramatics event at **Kashiyatra**, managing **500 + participants** across **4 sub-events** while coordinating cross-functional teams and event operations.

HONOURS AND ACHIEVEMENTS

- **Secured 2nd position** among **65+ teams** in **Strategy Storm's Case Competition 2026**, hosted by **IIT Guwahati**.
- **Qualified in the top 10%** among **50+ teams** in **ANHAD**, a case study competition hosted by **IIT Jammu**.
- **Qualified for Round 2 (Case Submission)** of analytics case competition organized by **IIM Bangalore**.
- Secured First Runners-up position in the football tournament at Mashal (Joy Bangla), the sports fest organized by ECE department'25.
